

**Local.**  
**A member of your community.**  
**Understanding your needs.**

We are a local group of professionals, with combined experience of more than 30 years in the field of psychiatry and mental health. With extensive clinical understanding of psychiatric and mental health disorders, we are committed to providing comprehensive services to formulate quality, effective and appropriate treatment plans to residents of assisted living facilities, skilled nursing and long-term care facilities, group homes and board & care facilities needing psychiatric and mental health care.

Vista Psychiatric & Primary Care Services believes that our clients' needs are of utmost importance, and our team is committed to meeting those needs. We believe in timely and responsive care.

We are dedicated to providing wide-ranging psychiatric and mental health services to help each individual manage their symptoms. We provide psychotherapeutic and psychopharmacological interventions critical to targeting symptoms of the psychiatric and medical illness. Thus, supporting and facilitating the individual's highest possible level of functioning.

We set the standards for excellence and integrity in psychiatric and mental health services through multi-disciplinary interventions. Our partnership with local professionals enable us to provide a continuum of therapies which include psychotropic medication management, individual psychotherapy, behavior management and rehabilitation support services.

At **NO COST** to the facility, Vista Psychiatric & Primary Care Services delivers comprehensive psychiatric and mental health care for residents of assisted living facilities, skilled nursing and long-term care facilities, group homes and board & care facilities.

With Vista Psychiatric and Primary Care Services as your partner in providing care to your residents, your facility will be assigned a highly trained licensed clinician who is experienced working with adolescents, adults, older adults and the geriatric population requiring psychiatric and mental health care.

Our licensed clinicians include:

- Psychiatric Physicians (M.D.)
- Doctoral Level Advanced Practice Registered Nurses
- Psychiatric and Mental Health Nurse Practitioners
- Family Nurse Practitioners

Vista Psychiatric & Primary Care Services not only focuses on the psychiatric and mental health care of your residents, but also understands and most importantly, considers the physical and medical conditions that may impact the resident's treatment plan.

Our licensed clinicians will perform assessments and create treatment plans tailored to the needs of each and every resident that may include:

- Psychotropic medication management
- Individual Psychotherapy
- Behavior management
- Rehabilitation support services
- Referral for Neuropsychological assessment

Assisted living facilities, skilled nursing and long-term care facilities, group homes and board & care facilities have **NO FINANCIAL** obligations for any of the above services performed. For the most part, Vista Psychiatric & Primary Care Services bills Medicare (part B) or private insurances for the services provided to referred patients. In cases when referred patients are "not covered" for above services, a direct bill arrangement to the facility can be made.

For referrals, please call **(510) 356-4442**.

To help expedite processing of referrals, please fax patient's face sheet to our confidential fax line at **(510) 705-1597**, or email to [vistapsychiatry@hpeprint.com](mailto:vistapsychiatry@hpeprint.com).

Aside from the one-to-one interaction with residents from your facilities, our licensed clinicians may, upon your facility's request, provide the following services:

- Staff in-service training on how to better manage and care for patients suffering from psychiatric and mental health illnesses.
- Participate in your facility's behavioral meetings

Looking forward to a partnership focused on your patients' health and wellness!
